Crave Maternity has created an elegant and feminine collection, indicative of the individual lifestyles of the woman it is designed for.

Classic pieces keep daytime outfits simple but chic whilst the introduction of long line tunics are great for balancing out your pregnant figure. Jeans remain the ultimate wardrobe staple and are reinterpreted this season for all your style needs. Our signature suiting ranges are also updated with slim leg trousers, pencil skirts and ever-popular crops for a more contemporary work wear style.

Inspired by idealised summers past, weekend escapades and languid afternoons in the sun, Crave's notable feel for fashion, style and quality is unmistakable throughout our latest collection. The collection offers the very best in wearable maternity wear helping mums-to-be to look fabulous seven days a week with key pieces that work for any day, any occasion.
